

# Financial Tear Sheet

## Corporate Profile

New York-based Minerals Technologies Inc. is a resource- and technology-based growth company that develops, produces and markets worldwide a broad range of specialty mineral, mineral-based and synthetic mineral products and related systems and services. MTI serves the paper, foundry, steel, environmental, energy, polymer and consumer products industries. The company reported sales of \$1.638 billion in 2016.

The Company has four reportable segments:

**Specialty Minerals:** The Specialty Minerals segment produces and sells the synthetic mineral product precipitated calcium carbonate (PCC) and mines, processes and sells other natural mineral products, primarily limestone and talc. This segment's products are used principally in the paper, building materials, paint and coatings, glass, ceramic, polymer, food, automotive and pharmaceutical industries. Minerals Technologies is the largest supplier of PCC to the worldwide paper industry.

**Performance Materials:** The Performance Materials segment provides natural and synthetic materials to the industrial and consumer markets. The key businesses in Performance Materials are: Metalcasting; Household, Personal Care and Specialty Products; and Basic Minerals & Other Products. Minerals Technologies is the worldwide leader in the production of bentonite and i
