

Minerals Technologies Hosts Innovation Day

September 25, 2024

NEW YORK, Sept. 25, 2024 (GLOBE NEWSWIRE) -- Minerals Technologies Inc. (MTI) (NYSE: MTX) hosted an Innovation Day for investors and analysts on September 24 at its R&D Center located in Hoffman Estates, Illinois, which is home to the company's world-class analytics and bentonite-based application laboratory.

MTI's Innovation Day highlighted how its differentiated global mineral reserves, core technologies, application expertise, and close collaboration with customers worldwide combine to support leadership positions in key markets and sustainable long-term growth.

The event featured in-depth presentations from leading technologists and applications experts highlighting many of MTI's latest innovations and tailored solutions including:

- Data analytics and technical service capabilities
- Custom cat litter formulations and packaging solutions for global customer base
- Bleaching earth for edible oils and renewable fuel markets
- Personal care ingredients including retinol delivery systems and natural, clean solutions
- Water treatment including PFAS remediation and other environmental technologies
- Foundry green sand bonds and metalcasting services

"The day allowed us to showcase our core technical capabilities and how innovation at MTI supports our long-term growth," said Doug T. Dietrich, CEO of Minerals Technologies Inc. "The products and technologies we highlighted during the day were just a few of the many ways MTI creates value in the markets we serve," he added.
